Welcome to explore:connect, our first Annual Conference non-CME guide, a companion piece to the Conference Educational Program. This guide goes beyond our educational offerings to provide other important information you need to know to fully experience the conference.

You will find complete information on exhibitors, the exhibit hall map, and other activities taking place in the exhibit hall during the conference.

In addition to the exhibit booths showcasing new technologies and applications that enhance patient care, you will find twenty ePoster viewing stations, beverage centers, and the Silent Auction – where you can bid on medical laser equipment, supplies and training opportunities.

The Silent Auction is now in its 11th year. Take a moment to visit the Silent Auction area in the exhibit hall to preview the items and make a bid or two! Remember, all net proceeds from the Silent Auction will support research grants.

Don't miss out on a great opportunity to win some cash! Special drawings for \$1,000 each will be held in the exhibit hall during lunch and breaks, but you must be present to win. Tickets are attached to the badges of conference registrants.

You will not want to miss this year's Plenary Session. Read on for information on our impressive line-up of speakers and award winners. Please join us in honoring this year's recipients of honorary awards, best awards, and presidential citations.

We have a number of special events this year:

Back by popular demand is the Tech Connect session, now on Friday and included in the conference fee

The second annual Celebration of ASLMS Women in Energy-Based Devices, featuring a series of panels and round tables for a lively evening of discussion.

Enjoy this issue of explore:connect. This publication will be an invaluable source of information for you throughout the conference as well as an important takeaway for future reference.

Robert A. Weiss, MD
ASLMS President

Jeremy B. Green, MD
Program Co-Chair

Ashish C. Bhatia, MD, FAAD
Program Co-Chair

Ron R. Allison, MD
Program Co-Chair

Ask Me Anything session, hosted by Drs. Robert Weiss and Tina Alster, in the Exhibit Hall on Saturday afternoon.

The Exhibitor Reception on Saturday evening is a great place to grab a drink and a bite to eat, bid on silent auction items, and visit with the exhibitors one last time before they tear down and head home.

Our special Saturday evening reception for students, residents, fellows and early career scientists is now termed the "Early Career Reception" to reflect the mission of our Early Career Network, which is to support and encourage networking for those in training or just starting out in their professional careers.

Please remember to download the ASLMS mobile app. This important conference tool can help you build your conference schedule and allow you to interact with faculty members in many of the sessions. Features and instructions are in the back of the guide.

plenary session speakers

Friday, April 1 | 10:30 AM – 12:00 PM | Hynes Auditorium

KEYNOTE SPEAKER

High Power Lasers

Robert Afzal, PhD

Senior Fellow, Lockheed Martin: Mission Systems and Training – Ship and Aviation Systems | Bothell, WA

“Directed Energy Lasers: Near the Tipping Point”

Talk Summary: High Power Laser Directed Energy Systems have been envisioned for decades but beyond a few demonstrations, no systems have been fielded. Leveraging the two technology revolutions of fiber optical communications and industrial material processing; high power lasers that are powerful enough, efficient enough and small enough for fielding on tactical platforms are about to become a reality. The talk will discuss how this last piece of the puzzle has come to be, and why it's important. As fiber lasers transform military applications, we envision new treatments will also be enabled by the flexibility of the fiber laser architecture in generating wavelengths, pulse formats, power levels and fiber optic delivery systems.

Dr. Robert Afzal is a Lockheed Martin Senior Fellow in Ship & Aviation Systems, Mission Systems and Training (MST) Business Area. In this role, he oversees the technical development and roadmaps for lasers and laser applications. His core expertise is in fiber lasers, diode pumped solid-state laser and nonlinear optics. He is the Principal Investigator on the ALADIN Program which demonstrated the first beam-combined 30 kW high power fiber laser system, and is a lead point of contact on laser and related technology applied to Directed Energy, IRCM, and Active Imaging in Lockheed Martin.

He served on multiple occasions as the Director of Laser Systems and site manager for Bothell operations and was responsible for the P&L of laser systems. In 2006 he joined Aculight Corp. as VP of R&D which was acquired by Lockheed Martin in August 2008. Prior to joining Aculight, Robert was the VP of R&D at Spectra Systems in Rhode Island, developing photonic materials and sensors for applications such as taggents for security materials.

From 1992 to 2001 he was at NASA-Goddard Space Flight Center (GSFC) in the Science Directorate, developing lasers for space and airborne applications and in 10 years at GSFC contributed to science by having the laser lead on three space flight missions, to Mars, Mercury and to Earth orbit. Developing the flight lasers for the Geoscience Laser Altimeter System on the ICESat Mission was his most significant accomplishment. He was the Laser Lead on the Mars Orbiter Laser Altimeter Instrument on Mars Global Surveyor and designed the laser on Mercury Laser Altimeter on the MESSENGER mission.

After a post-doc at the Naval Research Laboratory, he took a position at Candela Laser Corp. helping develop the Alexandrite laser for tattoo removal, and diode based, optical tweezers.

Dr. Afzal holds a PhD from Brown University.

SPECIAL SPEAKER

Dr. Horace Furumoto Innovations Professional Development Young Investigator Award Recipient

Praveen Arany DDS, PhD

Assistant Clinical investigator, National Institute of Dental and Craniofacial Research, National Institutes of Health | Bethesda, MD

“Low Dose Clinical Biophotonics: Molecular Mechanisms Are Driving Precision Medicine Therapies”

Talk Summary: Dr. Praveen Arany will explore the popularity in clinical use of biophotonics devices in mainstream medicine from ophthalmology, oncology to various dermatological procedures. While the high power use to ablate or destroy tissues is understood well enough to facilitate robust, reproducible clinical results, the field of low dose biophotonics referred to as Photobiomodulation (PBM) Therapy is also gaining

more attention. There are clearly distinct effects of low dose biophotonic illumination on tissues but these have been difficult to translate for clinical therapy due to the significant technical and biological variations. Dr. Arany's presentation will overview some of our recent insights into molecular mechanisms that are aiding development of scientifically rigorous, mechanistically driven, safe and effective PBM clinical therapies.

FEATURED SPEAKER

Women's Health and Gynecology

Mickey M. Karram, MD

Director of the research division in women's health at The Christ Hospital and Professor of Obstetrics and Gynecology and Urology at the University of Cincinnati School of Medicine | Cincinnati, OH

“Energy Sources used for Female Sexual Dysfunction/Enhancement; Do they really work?”

Talk Summary: Dr. Karram will present an objective assessment of all the various energy sources that have been promoted and marketed for female sexuality.

The discussion will try to differentiate truth from hype and stress the importance of future scientifically valid studies.

PRESIDENTIAL CITATIONS

Jeffrey S. Dover, MD, FRCPC

In grateful appreciation of your teaching and scientific excellence, and for your contributions as a visionary and innovator with continued dedication and leadership of the Society.

Kenneth A. Arndt, MD

In grateful appreciation of your dedication to the Society, your excellence as a clinician, scientist, teacher and mentor and for being a pioneer and visionary with the highest ethical standards.

Richard Bankowski

In grateful appreciation of your service and dedication to the Society and your invaluable contribution as an international ASLMS ambassador and worldwide leader in laser and energy device education.

Mitchel P. Goldman, MD

In grateful appreciation of your advancement of laser and energy device education with innovative research and publications including comprehensive textbooks and years of scientific excellence presenting at ASLMS.

Henry H. L. Chan, MD, PhD, FRCP

In grateful appreciation of your service and dedication to the Society and for your efforts on a global scale to be a leader and to promote the science of lasers and energy devices.

Ron R. Allison, MD

In grateful appreciation of your leadership, hard work, determination and innovation in strengthening the Society's educational programs as Program Chair for the 2016 Annual Conference.

Ashish C. Bhatia, MD, FAAD

In grateful appreciation of your leadership, hard work, determination and innovation in strengthening the Society's educational programs as Program Chair for the 2016 Annual Conference.

Jeremy B. Green, MD

In grateful appreciation of your leadership, hard work, determination and innovation in strengthening the Society's educational programs as Program Chair for the 2016 Annual Conference.

David J. Goldberg, MD, JD

In grateful appreciation of your service and dedication to the Society as Legal Advisor to the Board of Directors from 1998 to 2016.

David H. McDaniel, MD

In grateful appreciation of your commitment to research and innovation to advance laser and energy based science, and your years of commitment to teaching at ASLMS.

HONORARY AWARDS

DR. HORACE FURUMOTO INNOVATIONS PROFESSIONAL DEVELOPMENT YOUNG INVESTIGATOR AWARD

Praveen Arany, DDS, PhD

Talk Title: "Low Dose Clinical Biophotonics: Molecular Mechanisms are Driving Precision Medicine Therapies"

Date/Time: Friday, April 1, 11:09 - 11:26 AM

Location: Hynes Auditorium – Plenary Session

Talk Summary: Dr. Praveen Arany will explore the popularity in clinical use of biophotonics devices in mainstream medicine from ophthalmology, oncology to various dermatological procedures. While the high power use to ablate or destroy

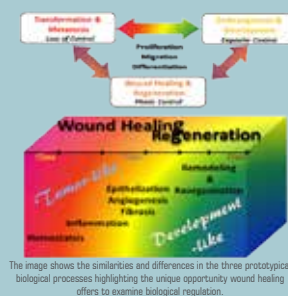

tissues is understood well enough to facilitate robust, reproducible clinical results, the field of low dose biophotonics referred to as Photobiomodulation (PBM) Therapy is also gaining more attention. There are clearly distinct effects of low dose biophotonic illumination on tissues but these have been difficult to translate for clinical therapy due to the significant technical and biological variations. Dr. Arany's presentation will overview some of our recent insights into molecular mechanisms that are aiding development of scientifically rigorous, mechanistically driven, safe and effective PBM clinical therapies.

Photoactivation of Latent TGF-β1: an Endogenous Optogenetic Mechanism for Tissue Regeneration

Praveen R Arany DDS, PhD | Assistant Professor, Oral Biology, School of Dental Medicine, University at Buffalo

The major biological question motivating Dr. Arany's research is to examine **biological regulation** and utilize this knowledge to **control clinical outcomes** through novel technologies. As a model biological process, his lab focuses on the process of wound healing and tissue regeneration. Tumors have been compared to non-healing wounds while tissue regeneration, an ideal outcome of the wound healing responses, has been suggested to recapitulate embryonic development. Thus, wound healing process offers a fascinating dichotomy to study biological regulation where early phases involve significant proliferation, migration and de-differentiation of cells simulating the uncontrolled, haphazard processes evident in malignancies. While latter healing phases involve differentiation, remodeling and reorganization simulating the exquisite, controlled biological events are evident during embryonic development. His lab utilizes a wide range of model systems and techniques to modulate wound healing process to elucidate underlying molecular regulatory mechanisms. In one such approach, his group used low dose laser treatments having shown to promote wound healing and tissue regeneration. This treatment is termed low level laser / light therapy (LLLT) or more appropriately Photobiomodulation (PBM) therapy. PBM therapy utilizes low doses of laser or LED illumination in a non-thermal process to alleviate pain or inflammation, modulate the immune response, and promote wound healing and tissue regeneration. Although this form of therapy has been around since 1960s, a major barrier to its mainstream clinical use has been a lack of understanding of its molecular mechanisms.

Dr. Arany's initial studies focused on recapitulating the reported wound promoting effects of lasers in human clinical study with oral wounds following tooth extractions. In this study, they noted an increased expression of a pivotal growth factor, Transforming Growth Factor-β1 (TGF-β1). TGF-β is a multi-faceted growth factor with key roles in development, wound healing, infections, diseases and malignancies. It has potent effects on many cell types and acts in a context-dependent manner to mediate many pathophysiological processes, some detrimental while others are therapeutic. Following up on the initial observations, his research outlined the precise molecular pathways involved in this process demonstrating that low power laser-generated reactive oxygen species (ROS) is sensed by a specific amino acid residue on the latent TGF-β1 complex and results in its activation. Their research further harnessed this mechanism to direct differentiation of dental and mesenchymal stem cells. This has significant implications for clinical dentistry as well as many areas of regenerative medicine. In order to translate these lab research observations to practical human clinical therapy, his recent work demonstrated that monitoring surface temperature and ATF-4, a key ER stress mediator, during PBM therapy can be utilized as discrete clinical and molecular biomarkers respectively. These observations should enable further development of safe and effective clinical PBM therapies.

The image shows the similarities and differences in the three prototypical biological processes highlighting the unique opportunity wound healing offers to examine biological regulation.

CAROLINE AND WILLIAM MARK MEMORIAL AWARD

David H. Sliney, PhD

Talk Title: "A Half-Century of Lasers in Surgery and Medicine"

Date/Time: Saturday, April 2 | 5:07 PM - 5:27 PM

Location: Hynes 102 – Basic Science and Translational Research Abstract Session

Talk Summary: Through his eyes as a biophysicist, Dr. David Sliney will reflect on a history of developments in laser technology, the optical sciences and laser biophysics that led to his current employment of lasers in surgery and medicine. Dr. Sliney will explore the advances that began with ophthalmologic application and further developed technological designs, delivery systems and surgical applications. Each new application prompted a successful collaboration between surgical and medical visionaries as well as basic scientists and engineers – just as envisioned by Leon Goldman and the founders of ASLMS.

LEON GOLDMAN MEMORIAL AWARD

Christine C. Dierickx, MD

Talk Title: "Magic Bullets"

Date/Time: Friday, April 1 | 4:10 PM - 4:30 PM

Location: Hynes Auditorium – Cutaneous Applications Abstract Session

Talk Summary: Dr. Christine Dierickx will provide insight of laser research applications contributed during her research time at The Wellman Center for Photomedicine including topics of vascular issues and hair removal and highlight the newest laser applications and developments, both fractional and pico. Dr. Dierickx will also discuss new energy sources beyond light with expanded indications of selective cryolipolysis and selective ultrasound thermolysis.

ELLET H. DRAKE MEMORIAL AWARD

Mathew M. Avram, MD, JD

Talk Title: "Pushing Innovation with Energy-Based Treatments in your Daily Practice"

Date/Time: Saturday, April 2 | 10:44 AM -10:55 AM

Location: Hynes Auditorium – Cutting Edge: Laser and Skin Session

Talk Summary: Dr. Mathew M. Avram will provide insight about innovative energy-based treatments. Guide points include a knowledge of basic laser physics, skin physiology and appropriate clinical endpoints. Dr. Avram will also share how to perform cutting-edge treatments on a daily basis to improve patient outcomes and emphasize how to innovate in a safe and effective manner.

EXCELLENCE IN LASER NURSING/ALLIED HEALTH AWARD

Mary Stoll, RN

Talk Title: "That was Then, This is How!"

Date/Time: Thursday, March 31 | 1:51 PM - 2:11 PM

Location: Back Bay Ballroom C – Nursing/Allied Health Course

Talk Summary: Journey with Mary Stoll, RN through a history of laser development; back to the general public's early concept and clinicians' experiences with lasers. Reflections will include laser manufacturers' educational programs, technical/service support and "state of the art" lasers of the time: size, speed (or lack thereof), heat and the noise. Ms. Stoll will also highlight recent advancements and revisit some "firsts" in the laser world: accidental discovery of hair removal, the first clearance of at home diode laser for hair removal, the first OTC laser for treatment of periorbital wrinkles, the first OTC clearance of OTC fractionated diode laser for treatment of perioral and periorbital wrinkles, the first laser to include active cooling and the development of the first IPL triggered protective eyewear. Ms. Stoll will share intriguing "before" and "after" images from prototype to current commercial product.

BEST OF SESSION AWARDS

BEST OF PAPDT-PDT ABSTRACT SESSION AWARD

Imran Rizvi, PhD

Abstract Title: OVERCOMING ENDOTHELIAL CELL-MEDIATED HETEROGENEITY AND CHEMORESISTANCE IN 3D TUMOR MODELS USING PDT-BASED COMBINATIONS

Date/Time: Saturday, April 2 | 5:12 PM - 5:18 PM

Location: Hynes 104 – ASLMS/PAPDT – PDT Abstract Session

BEST OF CUTANEOUS APPLICATIONS ABSTRACT SESSION AWARD

Paul M. Friedman, MD

Abstract Title: TRASER: PRELIMINARY RESULTS FROM A CLINICAL TRIAL FOR THE TREATMENT OF NASAL TELANGIECTASIAS

Date/Time: Sunday, April 3 | 10:01 AM - 10:07 AM

Location: Hynes Auditorium – Cutaneous Applications Abstract Session

OUTSTANDING EARLY CAREER ABSTRACT AWARD

Christina Banzhaf, MD

Abstract Title: INVESTIGATING THE TIME FRAME OF DRUG-APPLICATION FOR OPTIMAL UPTAKE IN AFXL-EXPOSED SKIN - A RANDOMIZED CONTROLLED CLINICAL TRIAL

Date/Time: Sunday, April 3 | 7:06 AM - 7:10 AM

Location: Hynes 103 – Early Career Abstract Session

OUTSTANDING EARLY CAREER ABSTRACT AWARD

Edward C. Kuan, MD, MBA and William Yao, BS

Abstract Title: LASER GENERATED SHOCKWAVES ENHANCE ANTIBACTERIAL ACTIVITY AGAINST BIOFILMS *IN VITRO*

Date/Time: Sunday, April 3 | 7:21 AM - 7:25 AM

Location: Hynes 103 – Early Career Abstract Session

OUTSTANDING EARLY CAREER ABSTRACT AWARD

Seonguk Min, MD

Abstract Title: COMPARISON OF Er:YAG LASER AND BIPOLAR RADIOFREQUENCY COMBINED WITH INFRARED DIODE LASER FOR THE TREATMENT OF ACNE SCARS: DIFFERENTIAL EXPRESSION OF TGF β ISOFORMS MAY BE ASSOCIATED WITH DIFFERENCES IN EFFICACY BETWEEN ABLATIVE AND NON-ABLATIVE LASER TREATMENT

Date/Time: Sunday, April 3 | 10:37 AM - 10:41 AM

Location: Hynes 103 – Early Career Abstract Session

KERITH FOUNDATION BEST OF PHOTOBIMODULATION ABSTRACT SESSION AWARD

Stella R. Zamuner, PhD

Abstract Title: THE INVOLVEMENT OF ATP SYNTHETICS IN CELLULAT PROTECTION CAUSED BY PHOTOBIMODULATION IN C2C12 CELLS EXPOSED TO SNAKE VENOM

Date/Time: Friday, April 1 | 3:30 PM - 3:40 PM

Location: Hynes 103 – Photobiomodulation Session

BEST OVERALL ABSTRACT AWARDS

BEST OVERALL BASIC SCIENCE AND TRANSLATIONAL RESEARCH AWARD

Christina Banzhaf, MD

Abstract Title: INVESTIGATING THE TIME FRAME OF DRUG-APPLICATION FOR OPTIMAL UPTAKE IN AFXL-EXPOSED SKIN - A RANDOMIZED CONTROLLED CLINICAL TRIAL

Date/Time: Sunday, April 3 | 7:06 AM - 7:10 AM

Location: Hynes 103 – Early Career Abstract Session

DR. RICHARD E. FITZPATRICK CLINICAL RESEARCH AND INNOVATIONS AWARD

Emily Wenande, MD

Abstract Title: A RANDOMIZED SIDE-BY-SIDE STUDY COMPARING ALEXANDRITE LASER AT DIFFERENT PULSE DURATIONS FOR PORT WINE STAINS

Date/Time: Sunday, April 3 | 10:08 AM - 10:14 AM

Location: Hynes Auditorium – Cutaneous Applications Abstract Session

Additional

NON-CME

LEARNING

OPPORTUNITIES

Ask Me Anything

Hosted by Robert A. Weiss, MD and Tina S. Alster, MD in the exhibit hall, this event provides attendees with the opportunity to listen to and participate in an open discussion and question/answer session. Inquiries may focus on devices, clinical approaches, and personal recommendations for practice.

Saturday, April 2
2:45 PM - 3:30 PM
Hynes Hall A

TECH CONNECT

This popular and energized session has been moved to Friday evening to allow for easier access for all conference attendees. Listen and share feedback as this expert panel discusses their personal procedural and device preference, what works and how/why devices/techniques are used.

Friday, April 1
4:45 PM - 7:15 PM
Hynes Auditorium

EXHIBITOR RECEPTION

Come grab a bite to eat and a beverage. It's your last opportunity to visit the exhibit booths and mingle with the exhibitors before they close and head home.

Saturday, April 2
5:30 PM - 7:00 PM
Hynes Halls A & B

Celebration of ASLMS Women in Energy-Based Devices

Friday, April 1 | 7:30 PM - 9:30 PM
 Sheraton Republic Ballroom

Join us for an exciting evening of networking and inspiration at the 2nd annual Celebration of ASLMS Women in Energy-Based Devices! Panelist presentations and round table sessions offer opportunities to expand your knowledge and connect with peers, students, residents, fellows, early career scientists, and mentors. A light reception of hors d'oeuvres and beverages will be available during the event. All conference attendees are welcome!

AWARD PRESENTATION

Victoria Reggie Kennedy is the recipient of the inaugural Leadership, Mentorship & Public Advocacy for Women in Medical Science Award, presented on behalf of the ASLMS and sponsored by Valeant Pharmaceuticals North America, LLC. Mrs. Kennedy has been a leading voice on the empowerment of women and girls in our society. She is an advocate for expanding medical research and for access to health care to all Americans.

Mrs. Kennedy is senior counsel in the corporate and securities practice at the international law firm Greenberg Traurig LLP. She is also President of the Board and co-founder of the Edward M. Kennedy Institute for the United States Senate in Boston, a non-partisan organization created to educate the public about the unique role of the United States Senate in our democracy.

This past January, the Women's Network of the Greater Boston Chamber of Commerce honored her with its 2016 Pinnacle Award for Lifetime Achievement. In 2015, PhRMA presented her with its award for Excellence in Advocacy and Activism. The Women's Guild of Cedars Sinai Hospital named her Woman of the 21st Century in 2013 for her advocacy for healthcare and, in that same year, Susan G. Komen awarded her with the Betty Ford Lifetime Achievement Award for increasing access to healthcare and prioritizing the need for personalized care and new technologies.

DEVELOPING THE NEXT GENERATION OF ENERGY-BASED TECHNOLOGY LEADERS

- » *Free Membership, Free Conference Registration, and Discounted Pre-Conference Course Fees* for students, residents, undergraduate and graduate students, fellows-in-training, and post-doctoral fellows
- » *Early Career Abstract Program* with travel grants available
- » *Student Research Grants* - as many as four student grants of \$5,000 each may be awarded annually
- » *Preceptorship Program* to learn new techniques and perspectives in lasers and other energy-based technologies, while observing a successful practice in action
- » *Student Board Representative Positions* on the Board of Directors of ASLMS, offering practical non-profit, non-voting board leadership experience

You're Invited

Early Career Reception

Saturday, April 2 | 7:30 PM - 9:00 PM
Sheraton Constitution Ballroom B

This special reception offers students, residents, fellows, and early career scientists an opportunity to meet and network. Attendees can enjoy complimentary hors d'oeuvres, beverages, and excellent conversation with peers.

EARLY CAREER OPPORTUNITIES

Health and technology advancements of the future rely on the great minds of emerging clinicians and research scientists. That is why ASLMS offers FREE memberships, waived conference fees, and discounts on pre-conference courses to students, residents and fellows for the duration of their training. The ASLMS Early Career Network aims to support those in training and at the start of their professional careers by building relationships and promoting involvement in ASLMS.

“ I became involved with ASLMS to explore my interest and love of biomedical lasers. ASLMS is a unique organization that is truly the preeminent resource for biomedical laser research and education. Membership provided me the opportunity to learn from and network with more experienced colleagues and has been invaluable in advancing my career.”

BRADLEY S. BLOOM, MD
2015-16 RESIDENT/FELLOW STUDENT BOARD REPRESENTATIVE AND EARLY CAREER COMMITTEE CHAIR

“ I am convinced that in ASLMS, we are making a positive and lasting change toward greater diversity in an energy-based device workforce and leadership.”

YASAMAN DAMESTANI, PHD
2015-16 EARLY CAREER SCIENTIST STUDENT BOARD REPRESENTATIVE

Undergraduate Student – Any student who is seeking an undergraduate degree at an accredited educational institution. This class is non-voting.

Graduate Student – Any scientist, engineer, physician, or health care professional who has earned a bachelor's degree, and is pursuing further education in science, engineering, biology, medicine, surgery or other related discipline.

1st Year – If you have completed your training in the last year.

2nd Year – If you have completed your training in the last two years.

Associate – Any scientist, engineer, physician, other health care professional, or any individual who is qualified and duly licensed to engage in independent clinical practice and is qualified and recognized in his or her respective field. Or, any individual who is recognized as being significantly involved with the laser industry.

Fellow – Fellows are Associates who qualify by their activities and who have been Associates in good standing for a period specified by the Board of Directors. Fellow status is renewed every three (3) years.

Lifetime Associate – A Fellow or Associate in good standing, who by reason of physical infirmity is unable to continue in scientific, biological, or medical practice or who has retired from industry, scientific, biological or medical practice who has submitted a written request to the Secretary and received approval from the Board of Directors.

Honorary Member – A person of outstanding attainment recommended by the Board of Directors and elected by the general membership. Honorary members may not vote or serve on a committee.

Conference and Travel Grants

Receive waived conference registration fees and 50% off of pre-conference courses for students, residents and fellows[†].

Additionally, a limited number of travel grants up to \$1,000 are available each year to defray the travel and lodging costs for residents and fellows who submit abstracts accepted for oral presentation.

Research Grants

ASLMS annually awards research projects designed to foster the development and use of lasers and other energy-based technologies in medical and surgical applications. In addition, as many as four student grants of \$5,000 each may be awarded each year.

Preceptorship Program

The ASLMS Preceptorship Program provides a unique opportunity for ASLMS members who are early in their career to learn new techniques and perspectives in lasers and other energy based technologies, observe a successful practice in action and develop valuable career networks.

Student Board Positions

The ASLMS board welcomes the unique perspective residents and fellows can bring to the organization. Four Student Board Representative positions on the Board of Directors of ASLMS offer practical non-profit, non-voting board leadership experience and opportunities to receive mentoring from established leaders. In addition, the individuals will inform the board and provide a student's perspective on issues impacting their education.

Lasers in Surgery and Medicine Journal

Your membership entitles you to a FREE online subscription to the scientific and clinical journal, *Lasers in Surgery and Medicine* - the official journal of the Society. Published and distributed to ASLMS members eleven times per year, the journal contains clinical studies, reviews and research reports about the latest findings and uses of lasers in all surgical and medical specialties.

*ASLMS member who is a third year resident (or second year resident as long as the preceptorship occurs during their third year of residency) or in a fellowship.

**ASLMS member who is between one and five years post medical school graduation.

[†]Does not include breakfast or luncheon sessions..

Coming Soon - More Early Career opportunities to connect and learn through the ASLMS website!

4200+ MEMBERS
50+ Medical Specialties Represented

MEMBERSHIP BENEFITS

BECOME A MEMBER

Join us and a network of 4,200 ASLMS members from around the world as we explore new laser and energy-based medical applications.

OUR MISSION

Promote excellence in patient care by advancing biomedical application of lasers and other energy-based technologies world wide.

EARLY CAREER

ASLMS offers free membership to students, residents, and fellows for the duration of their training.

MULTIDISCIPLINARY BODY OF KNOWLEDGE

The ASLMS membership represents more than 50 medical specialties including physicians, surgeons, nurses and allied health care professionals, scientists involved with product development, biomedical engineers, biologists, industry leaders and equipment manufacturers.

By continuously exchanging information across scientific, technological and medical disciplines, ASLMS members are often the first in their fields to hear about and try new laser and other energy-based procedures and treatments. This body of research is invaluable to enhancing patient care through innovative new techniques and technology.

EDUCATION

ASLMS educational offerings come in several forms: in person at the Annual Conference and regional courses, as well as online learning, where members have access to ePosters and podcasts. Members save hundreds of dollars on conference and course fees.

FREE SUBSCRIPTION TO *LASERS IN SURGERY AND MEDICINE (LSM) JOURNAL*

Our journal is the most prestigious and widely circulated peer reviewed scientific journal dedicated to basic and applied aspects of laser therapy and diagnosis. Each year, members receive 11 editions of our highly rated, indexed, professional journal with clinical studies, reviews and research reports.

PHYSICIAN LOCATOR SERVICE

Board certified physician members of ASLMS can be located by the general public through our Physician Locator Service.

COMMUNICATIONS

Members stay up-to-date on the latest developments in laser and energy-based medicine and surgery by accessing the *Light Reader* quarterly ASLMS newsletter, weekly enewsletters, a variety of social media outlets and the ASLMS mobile app.

RESEARCH GRANTS AND SCHOLARSHIPS

ASLMS annually awards research projects designed to foster the development and use of lasers and other energy based technologies in medical and surgical applications. In addition, as many as four student grants of \$5,000 each may be awarded each year.

WORLDWIDE PROFESSIONAL NETWORK

Free 24-hour access to our exclusive online directory of over 4,200 members means you can network with your fellow ASLMS members at your convenience.

USE OF ASLMS NAME AND LOGO

Display the prestigious ASLMS name in your credentials and use the logo in your print and electronic communications.

Join Us Today!

To apply, visit the conference registration desk or go to aslms.org.

COMING SOON: THE REDESIGNED ASLMS WEBSITE AND MEMBER MANAGEMENT SYSTEM!

These two major enhancements will help improve ASLMS members' online experience and strengthen the Society's professional presence.

Tech savvy systems = membership-friendly improvements

- Streamlined navigation
- Responsive web design
- Smooth transactions. Membership applications, renewals, registrations and abstract submissions will be easier and more efficient.
- Enhanced member profiles and membership directory. Find and connect with other members easily.
- Upgraded resources for professionals
- New resources for our Early Career, Nursing/Allied Health, and Women in Energy-Based Devices groups.

The better we look, the better you look!

The new website will enhance the professional presence of the Society and its members. The public information section is greatly **expanded** to help educate consumers about lasers and energy-based devices. With an **improved** physician locator, it will be easier than ever for consumers to search and connect with our members.

We could go on and on! This is just a sneak peek. Watch for more details coming soon!

Leon Goldman Circle

ADVANCEMENT OF LASER MEDICINE ENDOWMENT FUND

ASLMS has been a strong advocate of providing awards to fund important research projects that support the development and use of lasers and related technologies in medical and surgical applications. The Advancement of Laser Medicine Endowment Fund will ensure our efforts to fund research will continue to make a significant difference in improving patient care, and our commitment to furthering sustainable, unbiased research.

This endowment honors Dr. Leon Goldman, a Founder of the American Society for Laser Medicine and Surgery, Inc. He was an editor, an author and a researcher extraordinaire. He was an educator whose academic progeny spans many fields and projects on an international scope. Much of the scientific foundation for medical laser work is attributable to Dr. Goldman, and he indeed will always be known as the "Father of Laser Medicine."

Your Contribution Makes an Impact

Individuals who are in post-doctoral or residency training programs have been able to use ASLMS funded research as a catalyst to be successful in multiple ways, such as publishing, continued research and obtaining other funding.

Additionally, ASLMS dedicates research fund resources to support undergraduate and graduate students. It is through these funds that students gain the valuable experience necessary to advance career development.

Your donation is deductible under federal tax laws. All inquiries regarding ASLMS and its charitable solicitation registration, including requests for a copy of ASLMS' financial statement, may be directed to ASLMS.

Interested in contributing? Call 715-845-9283 or email paula@aslms.org

Join the Leon Goldman Circle

Please join the Leon Goldman Circle by pledging to contribute \$20,000 over 5 years to the Fund as an individual or, if a corporation, at one of the corporate giving levels. You will support a great cause and your generous contribution will be greatly appreciated and recognized by the Society in several ways.

As a Leon Goldman Circle member, you will receive a plaque commemorating your support of our important research efforts. You will be recognized on the ASLMS website and in each quarterly newsletter. At the annual conference, the Conference Guide, recognizing contributors, is distributed to all conference attendees. Individual contributors receive a pin and ribbon to wear during the conference and corporate members receive pins and ribbons for company representatives. All Leon Goldman Circle members are invited to participate in the Board Dinner held at the Annual Conference.

The New Beginnings Radiation Mark Removal Program

PROGRAM DESCRIPTION

The ASLMS New Beginnings: Radiation Mark Removal Program has received great response since its inception in March of 2014. This national campaign provides a unique opportunity for ASLMS members to rally around a good cause - pro bono laser treatment for cancer patients wishing to remove radiation tattoo marks.

BENEFITS FOR PARTICIPANTS

Participating members are listed on the ASLMS website and publicized across various mediums including social media, news releases sent to ASLMS media contacts, and Society newsletters.

REQUIREMENTS/LOGISTICS

- Participating physicians must be board certified and ASLMS members in good standing.
- Patients must bring an official letter from their oncologist or radiologist approving the removal of any radiation marks or tattoos.
- Patient visits are to be coordinated between the physician/practice and the patient.
- The service must be open to all cancer patients and not limited to breast cancer or lymphoma.
- The program will run year-round and be an ongoing service for cancer patients.

PATIENT RESOURCES

Patients can easily find their nearest participating physician by using the locator service on our website, aslms.org.

The New Beginnings program is also part of the resource network provided by the American Cancer Society. Information can be easily obtained by anyone who contacts the American Cancer Society through a local office, the nationwide twenty-four hour National Cancer Information Center at 800-ACS-2345 (800-227-2345), or through the website at www.cancer.org.

New Beginnings Radiation Mark Removal Program

This is a wonderful program and is greatly appreciated by the patients.

Lisa Chipps, MD, MS, FAAD of Moy-Fincher-Chipps Facial Plastics/ Dermatology in Beverly Hills, CA received a note of appreciation:

"Dear Dr. Chipps, Jeff, and staff, I wanted to thank you so much for your kindness on removing my breast cancer tattoos. I'm so touched by your kindness!! I'm truly grateful. Thanks again! All the Best, KS"

Thank you!

To all the participants in the New Beginnings program for providing this valuable service!

Aerolase Advances Cystic Acne Treatment

Breakthrough Treatment Technology

650-microsecond laser technology for severe and cystic acne

Immediate Results

Compared to 60 to 90 day delay with systemic therapies

Uniquely Gentle and Sanitary

No gels, no anesthetics, no skin contact by handpiece

Maximum Efficacy

Great for adolescent acne and adult acne for all skin types

"The Neo is my workhorse for acne. I treat 15 to 20 patients per day, even on cystic and teen cases. Results are immediate, unlike systemic therapies which can take 60 to 90 days."

- Michael Gold, MD

"In my 100-patient study, this laser with 650-microsecond technology resulted in significant clearance of moderate to severe acne with high patient satisfaction, minimal discomfort and no adverse events."

- Khalil Khatri, MD

1) Before 13 Months After 6 Tx

2) Before After 4 Tx

Photos courtesy of 1) Michael Gold, MD 2) Khalil Khatri, MD and Natalia Geraskova, MD

Aerolase 650-microsecond technology offers a new approach for highly effective, long-lasting results for treating active acne including problematic conditions such as nodulocystic acne and acne conglobata. This new treatment option offers an effective approach for patients who have not been able to use or have not responded to traditional therapies.

Contact Aerolase Today for an in office demo and a copy of the 100 patient study by Khalil Khatri, MD and Natalia Geraskova, MD: **Treatment of Moderate to Severe Acne with a 650-microsecond Pulsed Nd:YAG 1064nm Laser Using High Fluences and Stacked Pulses at a Low Repetition Rate. Published at ASLMS Annual Meeting 2014.**

ELLIPSE USA 1226
1515 E. 9th Avenue, Apt. 108 | Denver, CO 80218-3532
Come see what all of the buzz is about! With the introduction of the new and unique sub-millisecond pulses, Ellipse has once again pushed the boundaries for what is possible to treat, allowing doctors to further expand treatment possibilities such as extra thin telangiectasia and pink (residual) port wine stains and residual rosacea. Even though Nordlys is new and ground-breaking, it is still produced to the well-known Ellipse quality and all treatments and results are thoroughly documented in clinical articles. Thousands of users and millions of treatments around the world proves that Ellipse is the world's most effective system.

ELSEVIER, INC. 303
1600 John F. Kennedy Boulevard, Suite 1800 | Philadelphia, PA 19103
ELSEVIER is a leading publisher of health science publications, advancing medicine by delivering superior reference information and decision support tools to doctors, nurses, health practitioners and students. With an extensive media spectrum — print, online and handheld, we are able to supply the information you need in the most convenient format.

ELTAMD SKINCARE 321
2055 Luna Road, Suite 126 | Carrollton, TX 75006
EltaMD™ is founded on the belief that the responsible and innovative application of medical expertise and science will change the way physician-dispensed skin care products are used to treat people. The EltaMD™ skincare line includes a complete spectrum of sun care products, one for every skin type and unique need. EltaMD™ skin care products focus on providing safe, effective skin care that includes deep, gentle cleansing and intense moisturization for all skin types, including the most sensitive skin.

ENDYMED, INC. 813
790 Madison Avenue, Suite 402 | New York, NY 10021
EndyMed Medical offers energy based medical aesthetic treatment systems for both the professional and consumer markets. EndyMed's proprietary, FDA cleared 3DEEP® radiofrequency (RF) technology is a highly effective, superior solution for non-ablative wrinkle reduction, skin tightening on both the face and body, body contouring, RF microneedling skin remodeling, and acne and traumatic scar treatment. EndyMed's unique, patented 3DEEP® technology delivers RF energy three layers deep into the skin, without any pain or risk, reactivating the natural collagen production to remove wrinkles and noticeably lift and tighten skin. With six RF generators, 3DEEP® is the newest, most innovative skin technology available today. 3DEEP® delivers focused energy to the depth of the dermis with minimal epidermal heat or pain, and is safe and effective for all skin tones.

SILENT AUCTION DONOR
ON LIGHT SCIENCES, INC. **324**
7852 Starward Drive | Dublin, CA 94568
ON Light Sciences is pleased to introduce the DeScribe® transparent PFD patch, the most significant advance in tattoo removal since the Q-switched laser. The FDA-cleared PFD patch performs several functions simultaneously: it reduces the opaque white bubble layer to allow multiple passes in a treatment session, provides significant optical clearing of tissue, protects the epidermis, and inhibits potentially infectious back-splatter and fumes. In a recent clinical trial, patients reported not only less discomfort, but faster healing post-treatment with the DeScribe® transparent PFD patch. In the same study, 100% of subjects given the option of completing treatment with or without the patch chose the patch. The ability to perform up to four passes in one brief treatment session with your existing laser can be a compelling marketing and business advantage for your practice. Visit us at www.onlightsciences.com or email us at info@onlightsciences.com.

OXYGENETIX INSTITUTE, INC. **325**
9663 Santa Monica Boulevard, Suite 223 | Beverly Hills, CA 90210
Oxygenetix is a breakthrough foundation to cover, help heal and minimize - even eliminate - procedural scars. Designed for doctors, breathable foundation covers and treats a wide variety of skin problems: skin injuries, wounds, rashes, cracked, dry skin, acne scars, rosacea and other skin conditions. On post-surgical scars, patients are re-assured and impressed that after care includes safely camouflaging any evidence of surgery.

silent Auction

The 11th Annual ASLMS Silent Auction offers Annual Conference attendees the opportunity to receive great deals on new medical laser equipment and supplies as well as other exciting items.

All net proceeds from the Silent Auction will be designated to fund research grants designed to foster the development and use of lasers and energy related technologies in medical and surgical applications.

As in any Silent Auction, the success of the event is entirely in your hands. The Silent Auction Committee and ASLMS Board of Directors have secured many valuable items and now we need you, the member and non-member conference attendees, to support their efforts by placing bids!

Details

- Participants must be 21 years of age or older.
- Only Physicians are allowed to bid on lasers.
- Minimum bids start at 50% of total value.
- Winning bidders that are not in attendance at the conference will be notified and arrangements to complete the purchase will be made.

Jason N. Pozner, MD, Chair, ASLMS Silent Auction Committee

More than 30 Annual Conference exhibitors and individuals have donated items worth more than \$450,000, including: medical equipment, on-site preceptorships, online training, electronics, gift certificates, and more!

Dates and Times

Friday, April 1, 2016
Annual Conference on-site bidding opens - 9:00 AM ET

Saturday, April 2, 2016
Annual Conference on-site bidding closes - 6:30 PM ET

Saturday, April 2, 2016
Winners announced - 6:30 PM ET

Wednesday, April 6, 2016
Items that do not receive minimum bids will be available online

LASER EQUIPMENT

Donated by: Aerolase Corporation
Item #100: LightPod Neo Handpiece with 650-microsecond Laser Technology
Value: \$14,000
Bidder Qualifications: Physicians only and must be over 21.

Donated by: Canfield Scientific, Inc.
Item #101: VEOS HD2
Value: \$1,095
Bidder Qualifications: Physicians only and must be over 21.

Donated by: Cynosure, Inc.
Item #102: Emerge
Value: \$20,000
Bidder Qualifications: Physicians only and must be over 21.

Donated by: Cynosure, Inc.
Item #103: Pellevé®
Value: \$60,000
Bidder Qualifications: Physicians only and must be over 21.

Donated by: Ellipse USA
Item #104: Nd:YAG 1064
Value: \$57,000
Bidder Qualifications: Physicians only and must be over 21.
Note: Only compatible with the Ellipse Nordlys Platform

Donated by: InMode/Invasix
Item #105: InMode Fractora Blue Device
Value: \$49,900
Bidder Qualifications: Physicians only and must be over 21.

Donated by: Lumenis
Item #106: Nd:YAG handpiece for MP22 IPL
Value: \$10,000
Bidder Qualifications: Physicians only and must be over 21.
Note: Must own an M22 IPL workstation; prerequisite to the handpiece upgrade for the M22 IPL workstation.

Donated by: Sanctuary Medical Center
– Dr. Jason Pozner, MD and Jeff Davis, CEO
Item #107: Preowned Syneron Velashape II in excellent condition
Value: \$12,000
Bidder Qualifications: Physicians only and must be over 21.

Donated by: Syneron-Candela
Item #108: Mini-GentleLase Alexandrite Hair Removal Laser
Value: \$79,900
Bidder Qualifications: Physicians only and must be over 21.

Donated by: Thermi
Item #109: ThermiVa - RF Controller, Operations/Service Manual, Power Cord and Foot Pedal
Value: \$69,000.00
Bidder Qualifications: Physicians only and must be over 21.

OTHER EQUIPMENT

Donated by: B&W Tek, Inc.
Item #200: Exemplar Plus LS
Value: \$2,995
Bidder Qualifications: Must be over 21.

Donated by: BTL Industries, Inc.
Item #201: Vanquish Flex Applicator
Value: \$25,000
Bidder Qualifications: Physicians only and must be over 21.

Donated by: Lutronic, Inc.
Item #202: Five Boxes of INFINI Tips
Value: \$3,500
Bidder Qualifications: Physicians only and must be over 21.

Donated by: Oculo-Plastik, Inc.
Item #203: OPSlims for IPL
Value: \$355
Bidder Qualifications: Must be over 21.

Donated by: Oculo-Plastik, Inc.
Item #204: The Durette® II with Flexible Nasal Piece
Value: \$299
Bidder Qualifications: Must be over 21.

Donated by: Oculo-Plastik, Inc.
Item #205: The Durette® III with Movable Plastic Nasal and Temporals
Value: \$299
Bidder Qualifications: Must be over 21.

Donated by: Oculo-Plastik, Inc.
Item #206: The Durette® IV with New Swivel Metal Attachments
Value: \$299
Bidder Qualifications: Must be over 21.

Donated by: Oculo-Plastik, Inc.
Item #207: Durette Plastic Black for PDT
Value: \$75
Bidder Qualifications: Must be over 21.

Donated by: ON Light Sciences
Item #208: Two Boxes of DeScribe PFD Patches (15 Patches/Box)
Value: \$1,170
Bidder Qualifications: Physicians only and must be over 21.

Donated by: Sciton
Item #209: Halo hybrid fractional laser adapter tips (20 qty)
Value: \$980
Bidder Qualifications: Physicians only and must be over 21.

Donated by: Syris Scientific
Item #210: v900L Vision Enhancement System
Value: \$2,295
Bidder Qualifications: Physicians only and must be over 21.

Donated by: ZELTIQ
Item #211: CoolMini applicator for the CoolSculpting System
Value: \$10,500
Bidder Qualifications: Must be a current customer in the US or Canada. Physicians only and must be over 21.

Donated by: Zimmer MedizinSystems
Item #212: Zimmer Cryo 6: The Skin Cooling System Designed for Superficial Aesthetic Procedures
Value: \$9,500
Bidder Qualifications: Physicians only and must be over 21.

TRAINING, OTHER SERVICES & ITEMS

Donated by: Tina S. Alster, MD
Item #300: One-day, on-site Observational Preceptorship with Dr. Tina Alster
Value: \$2,500
Guidelines: Date, time and location must be mutually agreed upon by Dr. Alster and the winning bidder. This opportunity is valid through April 1, 2017. Location is at Washington Institute of Dermatologic Laser Surgery (Downtown Facility: 1430 K St. NW, Washington DC).
Bidder Qualifications: Must be over 21.

Dr. Tina S. Alster is the founding director of the Washington Institute of Dermatologic Laser Surgery and is a clinical professor of dermatology at Georgetown University Medical Center in Washington, DC. She is a world-recognized leader in dermatologic laser surgery and has published over 250 peer-reviewed articles, 50 book chapters and 8 textbooks on the subject. Her contributions have resulted in her being honored with the Women's Dermatologic Society mentorship and legacy awards, American Society for Dermatologic Society service award and the Leon Goldman award from the American Society for Medicine and Surgery, among others. Dr. Alster maintains leadership and board positions in numerous professional and national organizations. Her commitment to teaching and mentoring others is evident in her establishment of scholarship endowments for women pursuing careers in medicine at Duke University. She has been listed by US News & World Report as among the nation's top 1 percent of physicians in dermatology.

Donated by: Michael H. Gold, MD
Item #301: One-day, on-site Observational Preceptorship with Dr. Michael H. Gold
Value: \$2,500
Guidelines: Date, time and location must be mutually agreed upon by Dr. Gold and the winning bidder. This opportunity with Dr. Gold is valid until April 1, 2017. Location is at Gold Skin Care Center / The Laser & Rejuvenation Center, Nashville, TN.
Bidder Qualifications: Must be over 21.

Dr. Michael H. Gold is the founder of Gold Skin Care Center, Advanced Aesthetics Medical Spa, The Laser & Rejuvenation Center, and Tennessee Clinical Research Center located in Nashville, Tennessee. Dr. Gold is also Clinical Assistant Professor at Vanderbilt University School of Nursing and Adjunct Assistant Professor at Meharry Medical College School of Medicine, also both in Nashville. He is a Visiting Professor of Dermatology for Huashan Hospital, Fudan University in Shanghai, China (11/2006), Guangdong Provincial People's Hospital, Guangzhou, China, as well as Visiting Professor of Dermatology at Number One Hospital of China Medical University (11/2008) in Shenyang, China. Additionally, he is Visiting Professor of Plastic Surgery, First People's Hospital of Foshan, Guangzhou, China and The First Affiliated Hospital of Zhejiang University, Hangzhou, Zhejiang. Dr. Gold is a board-certified dermatologist and cosmetic surgeon who oversees the various facets of the Center's operations: a combination of medical and surgical dermatology, cosmetic dermatology, aesthetic services and research endeavors. Dr. Gold is the author of over 300 published scientific articles, 15 textbook chapters, and the editor of two textbooks on photodynamic therapy and global use of PDT.

Donated by: David J. Goldberg, MD, JD
Item #302: One-day, on-site Observational Preceptorship with Dr. David Goldberg
Value: \$2,500
Guidelines: Date, time and location must be mutually agreed upon by Dr. Goldberg and the winning bidder. This opportunity with Dr. Goldberg is valid through April 1, 2017. Location is at Dr. Goldberg's office in New York City or New Jersey.
Bidder Qualifications: Must be over 21.

Dr. David J. Goldberg earned his medical degree from Yale University School of Medicine. He completed his dermatology residency and dermatologic surgical fellowship at New York University Medical Center. He is a Clinical Professor of Dermatology and Director of Laser Research at the Mount Sinai School of Medicine. He is also Clinical Professor of Dermatology and Chief of Dermatologic Surgery at UMDNJ- New Jersey Medical School. Dr. Goldberg has published over 125 peer-reviewed manuscripts and is author of books on Laser Hair Removal; Ablative and Non-ablative Skin Rejuvenation; Photodamaged Skin, Complications in Cutaneous Laser Surgery, Laser Dermatology, and Dermal Fillers. Dr. Goldberg is also an attorney having graduated from Fordham University School of Law where he currently serves as Adjunct Professor of Law and teaches a course entitled "Advances in Health Care Law".

Donations as of 2-17-16. Please check Silent Auction Section in Exhibit Hall for more items.

TERMS & CONDITIONS

Proceeds from this auction will be used to expand the Society's research and education programs and to make grants for research projects relating to the use of lasers in medicine and surgery. The excess value of the bid over the item's assigned fair market value may be tax deductible. Please consult your tax advisor.

- Participating in the auction constitutes acceptance of the Terms & Conditions of this auction.
- Bidding opens live on-site at the Silent Auction to all conference attendees at 9:00 AM on Friday, April 1, 2016 and will continue until 6:30 PM, Saturday, April 2, 2016.
- ASLMS reserves the right to request from a bidder confirmation of available funds, such as a bank letter of credit, to support the validity of any bid.
- The winning bid on each item will be determined by the highest bid over minimum starting bid received. Winning bids will be announced in the Exhibit Hall at the Hynes Convention Center in Boston, Massachusetts at 6:30 PM on Saturday, April 2, 2016.
- ASLMS reserves the right to hold the bidding open for any item which does not receive the minimum bid prior to the scheduled closing time of the Silent Auction. If the bidding is held open on any item, the winning bid on that item will then be the first bid that meets or exceeds the minimum bid. Only ASLMS members will be eligible to bid online after the close of bidding at 6:30 PM on Saturday, April 2, 2016. Bidding for items which did not receive the minimum bid will resume for members on Wednesday, April 6, 2016.
- ASLMS cannot be held responsible for server downtime or a bidders inability to access our website which may affect timely submission of bids.
- By placing a bid, you are making a legally binding and irrevocable agreement to purchase the item at a price equal to your bid. If your bid is the high bid, you are legally obligated to purchase the item at that price, and pay shipping and handling costs by telephone (715) 845-9283, or by fax (715) 848-2493 no later than Monday, April 11, 2016, or, if bidding on an item is held open after the close of the Annual Conference, within five days after being notified of having submitted the winning bid. Winning online bidders will be notified by an ASLMS staff member as soon as possible following conclusion of the Silent Auction. Failure to make payment arrangements as required by this paragraph will automatically disqualify the winning bid and the next highest bidder will be declared the winner.
- Acceptable methods of payment in U.S. currency include cash, or the purchase price may be charged to the bidder's personal or business Visa, MasterCard or American Express credit card. After the conference, acceptable methods of payment are certified personal or company check, money order, or cashier's check payable to ASLMS, or the purchase price may be charged to the bidder's personal or business Visa, MasterCard or American Express credit card.
- ASLMS is unable to grant refunds or accept returns on these donated items.

DISCLAIMER

The items offered to you for purchase in this Silent Auction are provided by third parties who are not affiliates of the American Society for Laser Medicine and Surgery, Inc. ("ASLMS"). ASLMS has not inspected or determined the quality or condition of any of the Silent Auction items, and makes no representation or warranty with respect to those items, including without limitation warranties of merchantability or fitness of the item for a particular purpose. Except for warranties a manufacturer chooses to include, every item is being sold "As Is, Where Is". It is the bidder's responsibility to determine the exact condition of each item. The involvement of ASLMS in providing the product is limited to offering donated products to bidders in its Silent Auction and ASLMS is in no position to make any warranties of any kind. Warranties offered by the manufacturer and made available to ASLMS by the donor are posted for your reference. Bidders are advised to contact the manufacturer with any questions related to the warranty.

ASLMS is registered as a charitable organization in multiple states including the District of Columbia (under certificate no. 253917), Florida (under registration number CH19572), Maryland, New Jersey, New York, Pennsylvania and Washington. REGISTRATION DOES NOT IMPLY ENDORSEMENT, APPROVAL, OR RECOMMENDATION BY THE STATE IN WHICH ASLMS IS REGISTERED.

All inquiries and requests for information, including a copy of the current financial statement of ASLMS, may be directed to Paula Deffner, Accounting Specialist, by mail at American Society for Laser Medicine and Surgery, Inc., 2100 Stewart Avenue, Suite 240, Wausau, WI 54401, by email at paula@aslms.org, by telephone at (715) 845-9283, or by fax at (715) 848-2493, or to specific state offices as identified below.

ASLMS Industry Advisory Council

The ASLMS Industry Advisory Council (IAC) was created to provide a mutually beneficial relationship through which ASLMS, laser and related technology industries can work together to increase the value of Society membership and improve patient care by supporting research initiatives and clinical applications of lasers and related technologies in medicine and surgery.

IAC members have made a commitment to work closely with the elected leadership of ASLMS to foster the continued success of the Society, centered upon the continued development and safe use of lasers and related technologies. Support by these companies is very important to the success of the Society's research program and we thank and recognize each for their continued commitment to improve patient care. Use of the revenue from IAC membership fees is restricted to funding the ASLMS research program.

MEMBERSHIP BENEFITS

- Each IAC member company representative is invited to attend the IAC luncheon meeting with the ASLMS leaders at the Annual Conference.
- Company acknowledgement in printed conference materials.
- A placard for placement in the company's conference exhibit location identifying the organization as an IAC member.
- Ribbons for booth representatives which indicate IAC membership.
- All IAC members will be included in the Industry section of the ASLMS website.
- Company name and logo listing in the IAC directory and will be included in one edition of the ASLMS quarterly newsletter "Light Reader."
- Use of IAC logo.

Booth #1010

Introducing CoolAdvantage™

ZELTIQ®, the maker of the one and only CoolSculpting System introduces the CoolAdvantage applicator. This 3-in-1 applicator will revolutionize your practice.

- Now only a 35 minute treatment cycle
- Enhance comfort
- Better patient outcomes
- Broader range of patients

MERZ AESTHETICS

Booth #1244

Merz Aesthetics' signature Device technology is Ultherapy® an FDA-cleared procedure to non-invasively lift skin on the neck, under the chin and on the eyebrow as well as to improve lines and wrinkles of the décolleté. Merz Aesthetics Device is also launching the Cellfina™ cellulite procedure, an FDA-cleared treatment intended for the long-term improvement in the appearance of cellulite in the buttocks and thigh areas of adult females.

CYNOSURE

Booth #801

SculpSure is the world's first FDA-cleared hyperthermic laser treatment for non-invasive lipolysis. The 1060nm wavelength technology efficiently disrupts fat cells in just 25 minutes without damage to the surrounding tissue. Results can be seen in as little as six weeks, with optimal results at 12 weeks.

VALEANT PHARMACEUTICALS NORTH AMERICA, LLC

Booth #Island 1007

clear + brilliant pēlo™ laser is a new and innovative laser hair removal technology with a first-in class mechanism of action which incorporates linear scanning technology to help maximize efficacy, speed, and patient comfort, all with just one hand piece. This new device has the largest scan area within the class of diode hair removal lasers, allowing for full body treatments amongst all skin and hair types

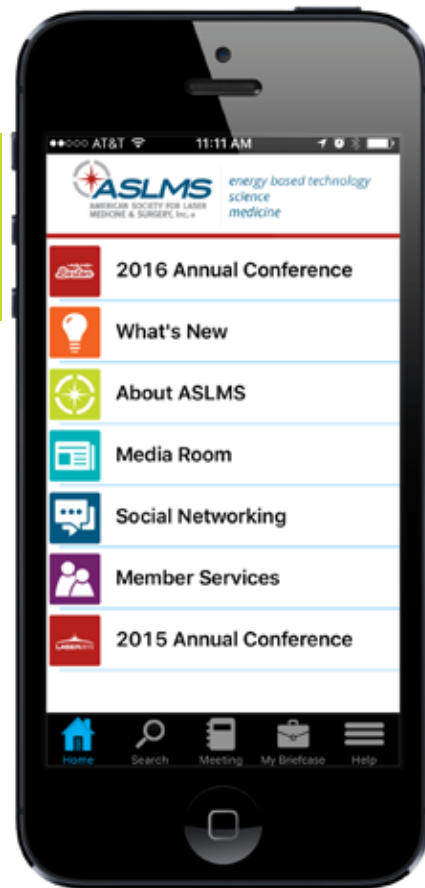

Get the ASLMS App!

The ASLMS mobile app has many features that will make electronically accessing and scheduling your conference content incredibly easy.

Features include:

- **Calendaring** allows you to add sessions and speakers to your schedule and build a calendar precisely to your needs.
- **Audience interactivity** in a number of the sessions. Send a question to the podium via the app instead of using the microphone. Several sessions will feature audience response polling through the app as well.
- **Abstracts** will be available in full text for viewing on the app during the conference.
- **Notes Manager** allows you to view, edit and email all of your notes.
- **Maps, Area Attractions, Hotel, and Restaurant information** highlights all the area has to offer.
- **Push notifications** during the conference will enable you to stay up to the minute with conference activities.
- **Year round membership features** including access to the LSM journal and much more!

Download the app today and get ready to take your conference experience to the next level!

User Guide

DOWNLOAD THE APP

The ASLMS Mobile app is available in the iTunes App Store or Google Play Store. Simply search ASLMS and download the app. Make sure to turn on push notifications in your settings to keep up-to-date on all of the conference happenings!

BUILD YOUR CALENDAR

1. Find a program:
 - Browse by Day or by Title
 - Browse Faculty
 - Browse Abstracts
 - Do a keyword search
2. Add a course, workshop or session: Select it, tap on the calendar icon next to the program time and select Add to My Briefcase.
3. Add an individual presentation: Tap on the calendar icon next to the presentation and select Add to My Briefcase.
4. View your calendar: Tap on the My Briefcase icon at the bottom of the screen or go to My Schedule in the Annual Conference menu.

Note: You may also add programs and presentations to your device calendar by selecting Add to iCal on an iPhone or iPad or Add to My Calendar on an Android device.

FILL YOUR BRIEFCASE

In addition to your calendar, your briefcase can contain other items you bookmark for quick access.

5. Add an item: Select it, tap on the calendar icon at the bottom of the screen and select Add to My Briefcase.
6. View your briefcase: Tap on the My Briefcase icon at the bottom of the screen or go to My Schedule in the Annual Conference menu.

MANAGE YOUR NOTES

7. Take a note: Tap on the notes icon, add your note and tap Save.
8. Access the note: Tap the notes icon again.
9. Access all notes: Go to Help/Manage Notes. From here, you can:
 - Add notes
 - View notes by topic
 - Email notes

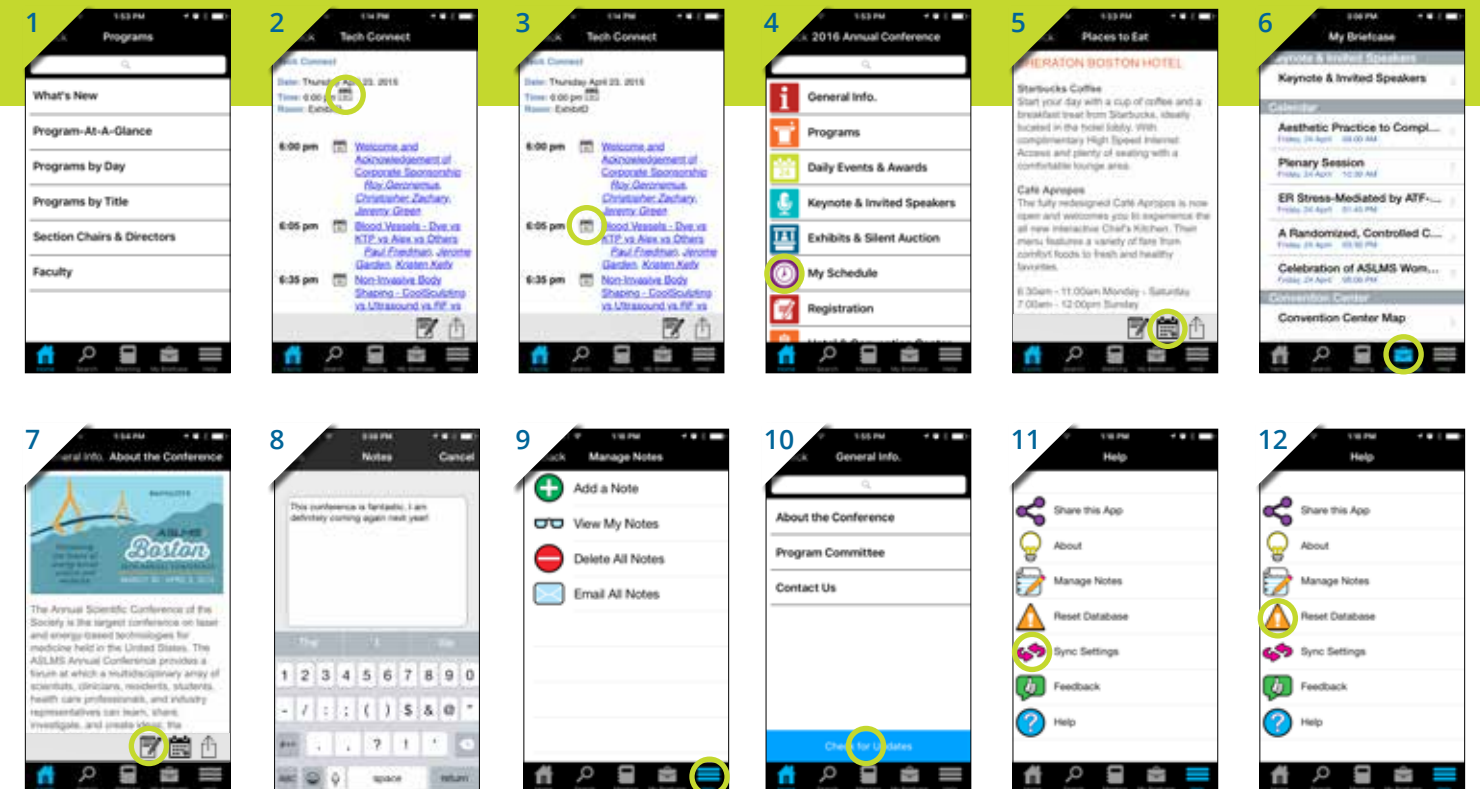

TROUBLESHOOTING TIPS

If the app is unresponsive:

- Check your Wi-Fi connection.
 - Confirm that the date, time and time zone on the device are accurate. Especially when traveling, these should be updated to reflect the current location.
10. Sometimes configuration changes are made after the user has downloaded and logged into the app, so the app content needs to be reloaded. You can look for "Check for Updates" on the bottom of your screen.
 11. The app is scheduled to automatically sync changes daily. You can update your device to sync more often by going to Help, Sync Settings.

12. You will also notice Reset Database under Help. **WARNING: Resetting the app will delete all calendar items, briefcase items and notes.**

NOTE: If you are still having issues, as a last resort, uninstall and reinstall the app.

MARK YOUR CALENDAR!

ASLMS 2017

April 5-9, 2017
